| FNMA Notes/Discount Notes  | 0.65%  |  |  |  |
| FHLMC Notes/Discount Notes   | 0.65%  |  |  |  |
| Total US Agency Notes  | 25.76% |  |  |  |

<sup>&</sup>lt;sup>1</sup> This monthly review complies with all of the elements required by California Government Code §53646(b), with the exception of a detailed listing of each investment. A complete copy of the *Quarterly Pooled Investment Fund Report*, including a detailed listing of each investment, is available on the Department of Finance, Investment Division Web page at <a href="https://finance.saccounty.gov/Investments/Pages/RptQuartly.aspx">https://finance.saccounty.gov/Investments/Pages/RptQuartly.aspx</a>.

<sup>&</sup>lt;sup>2</sup> Percent of market to book value is calculated using amortized book value. The GASB 31 fair value reported in the County's Annual Financial Report is calculated using the book value at purchase.

<sup>&</sup>lt;sup>3</sup> Percentages may not add up to totals due to rounding

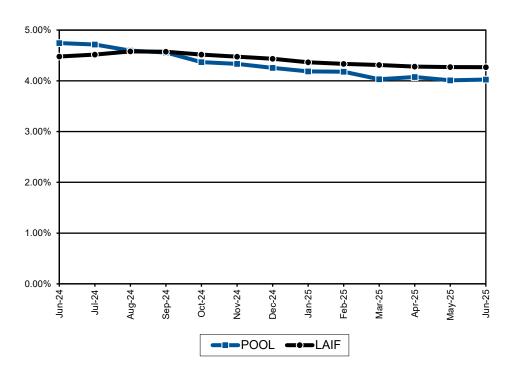

## YIELD HISTORY

The earned income yield history represents gross yields; **costs have not been deducted**. The investment management costs in prior years and this year continue to be approximately 6 basis points or 0.06%. The quarterly apportionment of earnings to participating funds will be made on a **cash basis** (as opposed to an accrual basis) for the first three quarters of the fiscal year. Earnings to participating funds will be annualized over the fiscal year based on a fund's cumulative average daily cash balance at each quarter end and fiscal year end. At fiscal year end (fourth quarter), the earnings of the pool will be converted to an accrual basis for the fourth quarter earnings' allocation.

# YIELD TRENDS<sup>4</sup>

### **Earned Income Yield Over Last 12 Months**

#### **CASH FLOW PROJECTION-**

The Pooled Investment Fund cash requirements are based on a 14-month historical cash flow model. The model has been adjusted for expected non-reoccurring participant liquidity needs. This projection, updated on July 14, 2025, is sufficient to meet cash flow expenditures for the next six months.

| Month | Beginning Bank<br>Balance              | Maturities &<br>Interest | Receipts  | Disbursements | Difference | Less<br>Investments<br>Beyond 1 Year | Funds Available to Invest<br>for<br>Future Cash Flow Needs <sup>5</sup> |  |

Release Date: July 28, 2025

<sup>&</sup>lt;sup>4</sup> The earned income yield is the total net earnings divided by the average daily portfolio balance multiplied by 365 and then divided by the actual number of days in the month. The reported yield fluctuates based upon the number of days in the month, thus resulting in the anomaly of higher yields being reported for months with fewer days. February's yield is a prime example of such an anomaly.

<sup>&</sup>lt;sup>5</sup> Any excess net cash flow amounts in this column will be used to fund the negative cash flow positions in later months.
